## RESULTS

### DELAWARE SUPREME COURT AFFIRMS THE DECISIONS OF THE IAB AND SUPERIOR COURT, HOLDING THAT AN EMPLOYER CORRECTLY PAID FOR KETAMINE INFUSION TREATMENT IN ACCORDANCE WITH THE DELAWARE FEE SCHEDULE

#### **Workers' Compensation**

**March 21, 2024**

The claimant injured her right wrist in 2016 while working as a teacher for the State. Her injury eventually developed into complex regional pain syndrome (CRPS) involving multiple extremities. From 2017 to 2021, the State paid for 23 ketamine infusion treatments to treat the claimant's CRPS. The treatment was rendered by an out-of-state provider. In 2019, the State contracted with a new bill-review company that paid substantially lower amounts than was previously paid for the same treatment.

### Industrial Accident Board grants motion for reimbursement.

#### **Workers' Compensation**

**November 1, 2022**

We succeeded in having the Industrial Accident Board grant reimbursement of an amount of total disability benefits tendered that were offset by contemporaneous short-term disability payments. The Board denied the claimant's motion to compel production of paystubs that he claimed were required to determine the appropriate offset amount, if any. The Board reasoned that the information provided was sufficient to calculate the overpayment amount and that the Fair Labor Standards Act did not require the pay records be kept in any particular form.

### Defense prevails before the Industrial Accident Board.

#### **Workers' Compensation**

**December 2, 2021**

The claimant alleged several injuries. The Board denied the claimant's petition for additional compensation due on all counts, and granted the employer's petition for review to terminate total disability benefits. Specifically, the Board concluded that (1) a proposed left ankle reconstruction surgery was not reasonable and necessary, (2) there was insufficient evidence to prove a compensable left knee injury, (3) there was insufficient evidence to prove a compensable lumbar spine injury and (4) the claimant was capable of unrestricted return to work.

### Successful defense of workers' compensation case before the Delaware Supreme Court.

#### **Workers' Compensation**

**March 1, 2020**

In its order, the Supreme Court affirmed a decision of the Superior Court that had affirmed a Board decision regarding the compensability of travel expenses for trips to and from medical appointments. The claimant had petitioned for parking and toll expenses incurred during her trips to visit a doctor at University of Pennsylvania from her residence in Dover, Delaware.
